Wilson Martin, Assistant Director
State Historic Preservation Office
300 Rio Grande
Salt Lake City, Utah 84101

Dear Mr. Martin:

This letter is to inform you that the Division of Oil, Gas and Mining has been advised by Alton Coal Development, LLC (ACD) that the Division has failed to include two archeological sites in the previous requests for your concurrence regarding the surveys and mitigation for the Coal Hollow Mine. We recently sent you a formal letter as well as an email seeking clarification of the prior concurrences and wish to make our record clear prior to your reply. It has just been brought to our attention by ACD that a survey dated July 10, 2008 by Montgomery Archeological Consultants of 440 acres in the Alton Amphitheater (that included 80 acres within the proposed Coal Hollow mine permit area) had inadvertently not been submitted to the Division.

The Division and ACD had mistakenly understood that these 80 acres had been included in one of the two prior surveys completed in association with the approval for this mine and the BLM requested cultural resource survey associated with leasing of federal coal in this area. This latest survey has identified another archeological site that is within the permit area. This site is identified as 42Ka6505 in the report. In addition, in researching this discrepancy ACD has determined that the Division failed to include in its identification and request for concurrence a site that had been identified in the previous BLM survey. This site is identified as 42Ka6093. We are adding these two sites to the Determinations of Eligibility and Effect Table that we had previously submitted to you. We believe the following table now provides an accurate account of the sites that could be affected by the proposed mining operation and all of these sites are located within or partially within the proposed permit area.

Table 1 – Determinations of Eligibility and Effect

| Site Number | NRHP Determination | Effect Determination |
|-------------|--------------------|-----------------------------|
| 42KA1313 | Eligible | No Effect (will be avoided) |
| 42KA2041 | Eligible | No Effect (will be avoided) |
| 42KA2042 | Eligible | Adverse Effect (mitigated) |
| 42KA2043 | Eligible | No Effect (will be avoided) |
| 42KA2044 | Eligible | Adverse Effect (mitigated) |
| 42KA2068 | Eligible | Adverse Effect (mitigated) |

| | | |
|----------|--------------|-----------------------------|
| 42KA6104 | Eligible | Adverse Effect (mitigated) |
| 42KA6105 | Eligible | Adverse Effect (mitigated) |
| 42KA6106 | Eligible | Adverse Effect (mitigated) |
| 42KA6107 | Eligible | Adverse Effect (mitigated) |
| 42KA6108 | Eligible | Adverse Effect (mitigated) |
| 42KA6109 | Eligible | No Effect (will be avoided) |
| 42KA6110 | Eligible | No Effect (will be avoided) |
| 42KA6124 | Not Eligible | |
| 42KA6126 | Eligible | No Effect (will be avoided) |
| 42KA6505 | Eligible | Adverse Effect (pending) |
| 42KA6093 | Eligible | Adverse Effect (pending) |

We are proposing that the SHPO concur with the identification and effect for these two additional sites. Please provide your concurrence with our determination at your earliest convenience. We will subsequently seek concurrence in our proposed mitigation. The mine permit will be conditioned on protecting these two sites either by avoidance or by approved mitigation.

Sincerely,

Daron R. Haddock
Coal Program Manager
